

TAMLAZER® Laser Cleaning Machine

Application:

Remove

Rust

Paint

Oil

Coating

Advantages and Features:

Light weight

Simple operation

High efficiency

High tolerance

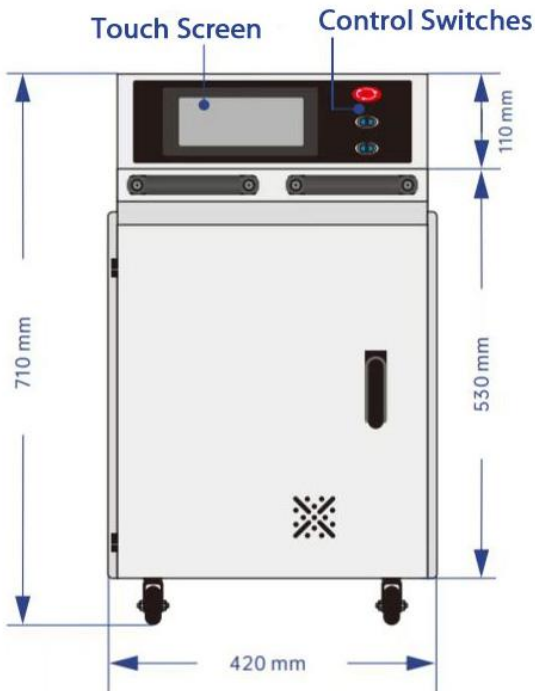

Durable lens

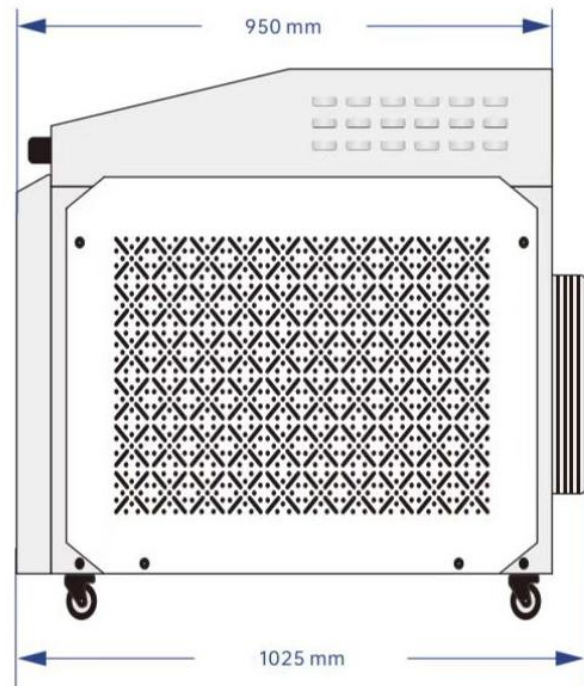

No pollution

Dimension:

Front Size

Side size

Data sheet:

- Laser power: 1KW/1.5KW/2KW/3KW
- Scanning width: 0~30mm
- Laser type: Continuous
- Power consumption: 5.5~9.5KW(chiller included)
- Cleaning efficiency: 15~45 m²/h
- Cable length: 7m
- Laser wavelength: 1064 ± 5nm
- Voltage: 220V/380V,50/60Hz
- Environment humidity: ≤70%,no condensation
- Cooling method: water cooling
- Cooling water requirements: purified or distilled water

Features and performances:

- Top brand CW laser source,welding gun&controller,water chiller.
- Fast,360 degree uniform results.
- Applicable to a wide variety of industrial applications.
- User friendly handheld strain free operation.
- Cabinet with easy roll casters.
- Simple and friendly operation interface.
- No consumables required except lens.
